General comments								I've gone through these and I must tell you that I do find it quite a difficult process differentiating between all the applications as they all seem so similar - they are virtually interchangeable so it's hard for anything to stand out.		I agree that it's quite difficult to discriminate between the applications. Of those I was allocated I thought they all had considerable expertise in the area of supporting Young Carers. However while the majority appeared very good, none seemed exceptional. For this reason I gave the majority 2; one application I thought poor so gave it 1.		Lots of very similar themes, very difficult as all were challenge to differentiate.	I found this very good.	
2021-05-YC002	Angus Carers Association	Angus, Scotland	£ 60,000	3	looks a well thought-through bid, organisation also looks well-connected with other agencies which feels as if it would increase the success of the project.					2		3		8
2021-05-YC020	MYTIME Young Carers	Dorset	£ 56,000			3		3	I quite liked this application - there seemed to be a good focus on the carers' emotional needs rather than purely on education and the funding would make a significant difference			2		8
2021-05-YC027	Signpost Stockport for Carers	Stockport	£ 38,000	3	very clear contribution to what looks like a very successful, established charity. Baked-in representation of YC to the project, lots of helping people help themselves	2						3		8
2021-05-YC030	Swansea Carers Centre	City & County of Swansea	£ 59,978			3	like focus on Young Adult Carers					3	2	8
2021-05-YC015	Gloucestershire Young Carers	Gloucestershire	£ 60,000	3	very clear, looks sustainable and appears to have good representation from YC as an input. Contribution to office overheads seems very modest.			2	seems very worthwhile organisation but focus seems to be on their education rather than respite for carers - and they are very well supported financially with income far exceeding their expenses last year - not sure our funding will make a big financial impact. I have similar comments to above but feel our funding would make a greater contribution				2	7
2021-05-YC016	Hillingdon Carers	London Borough of Hillingdon	£ 60,000					3		2			2	7
2021-05-YC025	Sandwell Young Carers	Sandwell Metropolitan Borough of Sandwell	£ 59,960			3						1	3	7
2021-05-YC031	Trafford Carers Centre	Trafford	£ 58,000							2		2	3	7

2021-05-YC008	Carers Forum Stirling Area t/a Stirling Carers Centre	Stirling Council Area	£ 53,500	1	happy to support this focused group to increase capacity, but need to drill in to specifics in terms of how the project will continue after 2 years and also I note that according to their website, they don't have a CEO at the moment	2	3	6
2021-05-YC014	Cheshire Young Carers	Cheshire	£ 60,000	2	very clear, if not groundbreaking. They seem very organised. They could do with better representation of YC on their board.	1	3	6
2021-05-YC005	Care for the Carers	East Sussex	£ 58,591	1	feels 'bitty' and top-heavy to me. The spread of cash across part-time posts makes me think that this is an afterthought, rather than central to the organisation. Also not keen that the continuation of the work will be through fundraising Carers	2	2	5
2021-05-YC017	Kingston Carers' Network	Kingston upon Thames	£ 59,805	1	state that free reserves only £30k but accounts show additional designated reserves of £70k	1	2	4
