Budget is **£400,000**.

Total requests are **£1,048,211**.

The 6 highest scoring applications total **£477,380**. This would allow a further application in the amber zone to be selected for assessment with the assumption that 5 of the 7 visited would be funded.

However, three of the applications in the green zone are using boxing as their main sporting activity (these are marked with an *). Trustees may not wish to take all 3 boxing focused applications through to assessment and if so, could choose an additional project from the amber zone instead.
